Lesson plan 3 – Register to Vote

Lesson 3 – Register to Vote – Webquest version

Aims:

- To generate discussion on voting and in particular women's voting rights globally.
- To raise awareness of students' eligibility to vote in the mayoral election in May
- To encourage students to register to vote

Notes on levels: This is suitable for E2/E3 learners with IT facilities. The lesson can be made more challenging for higher level learners by adding activities researching the history of women's suffrage in different countries (after Activity 2) and asking students to write a summary of their research. An additional task can also be added for higher level learners in Activity 3 to find out more about the history and countries of the Commonwealth.

Language points: This lesson is more focused on skills development: Developing scanning reading skills, reading for detail and filling in an online form.

Resources and suggested stages:

Resources – Webquest worksheet

Activity 1. Students discuss questions in Activity 1 in groups and then come together as a class to share their ideas and opinions. Teacher records a variety of opinions of the board and encourage students to discuss further.

Activity 2. Ask the students if they know the voting age in the UK and their country? Is it the same or different? Students use a search engine to find the answers. (Teacher - use the link below to check voting ages around the world).

Activity 3. Ask the students 'Can you vote in the London Mayoral Election?' Students who think 'yes' stand on one group, students who think 'no' in another group and 'not sure' stand in another group. Teacher records the numbers in each group on the board. Teacher then directs the students to Activity 3 on their worksheet and students read the information to find out if they are eligible to vote or not.
